28th International Student Congress Of (bio)Medical Sciences

8th - 10th June 2021

ISCOMS 2021

From the 8th until the 10th of June 2021, the 28th edition of the International Student Congress of (Bio) Medical Sciences (ISCOMS) will take place at the University Medical Centre Groningen (UMCG). ISCOMS is the largest, (bio)medical student congress of the world, organised for and by students.

Ambitious (bio)medical students and recent graduates

Each year, no more than 800 participants with around 60 different nationalities visit the congress, which makes ISCOMS a special meeting place for students all over the world.

UMCG medical specialists and other employees

UMCG staff will be able to meet companies and participants at the stands located at the public and central hall.

Professors, scientists and supervisors

During ISCOMS they give and attend presentations, lectures and / or workshops.

General impression of ISCOMS

Curious about what ISCOMS looked like in recent years? Then quickly scan the QR code.

What does the congress look like?

The UMCG

The University Medical Centre of Groningen (UMCG), which is one of the largest hospitals in the Netherlands, has many students, patients, visitors, doctors and researchers passing through. The Fountain Patio, the central place of the UMCG, will provide the perfect opportunity for a company to present itself to the audience of ISCOMS, for instance, by placing a stand. Of course, other innovative interpretations are always possible in consultation.

Focus

In 2021, ISCOMS will dedicate one day of the congress to the theme; 'nutrition'. Nutrition professor Jaap Seidell will give a keynote lecture and several workshops regarding this theme will be given.

Keynote lectures and workshops

Each year, ISCOMS has keynote lectures by renowned speakers including Nobel Laureate Prof. Sir Peter J. Ratcliffe MD, Prof. Ellen Roche PhD, Prof. Marion Koopmans DVM PhD and Prof. Jaap Seidell PhD. To vary the programme there are also interactive workshops in which you can participate.

Scientific research

ISCOMS offers students a great platform to present their innovative research. Each year, 350 participants present their scientific research in the form of a poster, oral or plenary session.

Did you know?

That ISCOMS is the largest and most professional (bio)medical student congress of the world with:

- 27 years of valuable experience
- Over 800 participants from more than 60 different countries
- 9 university students in the Executive Board, 21 university students in different committees
- 3 professors in the Advisory Board and over 100 professors and researchers involved in the scientific programme
- A total of 14,000 hours yearly put into organising ISCOMS by biomedical students
- An enormous amount of enthusiasm and dedication
